

WORKPLACE HEALTH AND SAFETY POLICY

The Vertikote Group cares about the health and safety of people and is committed to providing a safe work environment for its employees, contractors, customers and visitors.

All Vertikote people, whatever their role, have as their first objective the prevention of incidents which could cause injury to themselves and others.

Vertikote recognises that this end will be achieved by:-

- Committed leadership and management support;
- Behaviours by everyone that maintain a safe work place and no risk to health;
- The management of risk by identifying, assessing and controlling hazards;
- Ensuring that everyone understands and complies with occupational health & safety requirements;
- Empowering people to take responsibility for health and safety issues;
- Providing appropriate training to ensure a high level of health & safety awareness and capability;
- Recognising health & safety achievements and encouraging continuous improvement through teamwork;
- Incorporating goals for safety performance and good health management into strategic and operational plans;

Vertikote, its people, and their families depend on everyone being committed to the success of this policy.

P. FALLAS
Managing Director.
